Employers Are Absent At Hearing

LABOR READY TO PRESENT THEIR CASE

Huybrecht, Turner and Brown on Committee to Meet Employers

SAYLE IN STATEMENT

Says Meeting Called to Discuss

Dollars and Cents

Standpoint

BULLETIN.

W. S. Heddies was elected chairman and S. W. Gilman, secretary of the committee at the first meeting of all the five members this afternoon. Dr. McCarty in discussing the proposition before the committee stated that unless there was some method of bringing the employers and employees together at a common table for consideration of their disputes, he saw little hope of a satisfactory agreement.

The hearing of the committee appointed by Mayor Sayle to act as a special board of arbitration in the present strike of the Machinist and Federal unions, opened this morning in the Association of Commerce rooms with the very conspicuous absence of employers.

Mayor Sayle this morning appointed Prof. Edward A. Ross and Dr. Charles McCarty as two additional members of the special committee which will serve as a board of arbitration in the present strike controversy. S. W. Gilman, W. S. Heddies and N. J. Frey were originally named.

Labor had their men there with the previous agreements, the award of the war labor board and data to prove the justice of their claims. Among their representatives were, Glenn Turner, Paul C. Huybrecht and Joseph H. Brown. Federal Administrator Charles H. Goven of the war labor board was also at the meeting.

Labor leaders before the meeting expressed some surprise at the intimation of Mayor Sayle that the meeting was called to consider the situation from a dollars and cents standpoint. The labor leaders said that they did not understand that the meeting was called to discuss a matter of dollars and cents. They came to the meeting, they said, to present the just cause of the men who are now on strike. They pointed out that the real question lies in the matter of collective bargaining. The proposition of pay is secondary. At the Four Lakes Ordnance company the strike was not called when Mr. Stone had expressed willingness to deal with the men and it was only when he refused to meet the committee that the strike was called.

The laborers anticipate the argument of the employers that this proposition of a closed shop is the point of this strike. They deny any such desires claiming that they do not ask for a closed shop. The award of the war labor board does not stipulate a closed shop, they maintain, and they are merely asking that the principles of the award be put into effect.

In an opening talk, W. S. Heddies stated that he wished to be absolutely neutral. He did not represent the manufacturers nor the shopmen, but the general public, and if he could not be accepted in that capacity he did not wish to serve on the board.

S. W. Gilman stated that he wished it to be known that he had, through business and social relations been friends with practically every employer affected by the present controversy. In accepting him to serve on the committee, he said labor would have to recognize that fact and rely on his sense of good judgment and ability to act fairly in this situation.

Mr. Huybrecht in stating that Mr. Gilman was perfectly acceptable to the laborers, said that he believed the facts in the case of the shopmen were so clear and that the men were so undeniably right in their contentions that a brother of the manufacturers could not help but admit the fairness of labor's stand.

N. J. Frey said he believed he was

POSTERS OPPOSING VIOLENCE APPEAR IN THE EAST END

The following posters issued by the general strike committee have been posted in the east end:

To all those on the picket line:

"This is our fight. Let us make it a clean one.
"Use no force or violence.
"Be ladies and gentlemen.
"If you see anyone doing a wrong, prevent them from committing it.
"That will help them and you too.
"Remember what your organization stands for: manliness, cleanliness and co-operation.

"Signed,
"Strike Committee."

E. V. DEBS IS NOW IN PRISON

Is Given Clerkship Because of His Age; Term is Ten Years

(By the Associated Press)

WHEELING, W. Va.—Eugene V. Debs, socialist leader, sentenced to ten years' imprisonment at the Moundsville penitentiary for violation of the espionage act, began his term today as a clerk in the prison hospital.

Warden Terrell said he gave Debs the clerkship, the lightest work in the institution, because of his age. Before he began work the warden told Debs he would be well treated as long as he complied with the prison regulations and the only special requirements in his case was that he refrain from preaching any if his doctrines which Debs agreed to do.

Bakers' Strike Is At An End

Only Two Men Now Out at the Occident Bakery

The strike of the bakers is practically ended. At the shops of Piper Brothers where eleven men were out, a satisfactory agreement has been reached and the men are all working this morning. Owing to the peculiarity of the business of Piper Brothers, the union have made a slight concession and at the pasty shop, the women employees will be retained. At the Occident bakery where two men were out, no agreement has been reached, and men have not returned to work.

Army Recruiting Station Opened

The United States recruiting office at No. 2 South Carroll street has been reopened with Sergt. W. J. Brewer in charge. The government has launched upon the undertaking of immediately recruiting 50,000 men to replace the troops now overseas in the army of occupation. Men are also wanted for the Philippines, China, Panama and this country. Those enlisting can have the privilege of choosing where they want to be sent.

COUNTY QUOTA FOR LOAN IS \$3,916,575

Madison Must Raise \$2,163,124 on Same Plan

BELOW 4TH LOAN

State Must Raise \$75,037,500 to

Meet Demands of

Government

Based on the percentages that applied in the Fourth Liberty loan, Dane county will be required to raise \$3,916,575 in the Victory Loan about to be opened.

The quota for the city of Madison on the same basis will be \$2,163,124. Announcement came today that official quota for the state of Wisconsin in the Victory Loan would be \$75,037,500. In the Fourth Liberty Loan the computations showed that the county of Dane was required to raise 5.22 per cent of the state quota. This would give Dane county a quota of \$3,916,575. The quota of the city of Madison has always been computed as 55.23 per cent of the Dane county quota, which would give the city's share as \$2,163,124. In the Fourth Liberty loan the amount required to be raised in Dane county, which was greatly exceeded, was \$5,222,500. In that loan the ratio for Madison was \$2,884,400. The announcement today shows that the amount to be raised in Madison and Dane county is less than in the Fourth Liberty loan.

Of the Dane county quota the town of Vermont has the smallest percentage, which is always 52 per cent of the county quota. This would give the sum to be raised in the town of Vermont as \$26,082.77. The town of Dunkirk, which includes the city of Stoughton, must raise 5.79 per cent of the county quota. This would give the Stoughton-Dunkirk quota in the Victory Loan as \$226,769.69.

According to the Fourth Liberty loan rate, the town of Albion must raise 1.29 per cent of the Dane county quota; Berry, .76; Black Earth, .65; Blooming Grove, 1.43; Blue Mounds, 1.74; Bristol, 1.11; Burke, 1.17; Christiana, 1.73; Cottage Grove, 1.17; Cross Plains, 1.04; Dane, .99; Deerfield, 1.48; Dunn, 1.07; Fitchburg, 1.00; Mazomanie, .92; Medina, 1.39; Middleton, 1.76; Montrose, 1.17; Oregon, 1.41; Perry, .96; Pleasant Springs, 1.23; Primrose, .76; Roxbury, .80; Rutland, 1.01; Springdale, .98; Springfield, .99; Sun Prairie, 1.90; Verona, .62; Verona, 1.14; Vienna, 1.06; Westport, 1.87; Windsor, 1.64 and York, .94. These population and valuation percentages will apply and govern the Victory loan.

WASHINGTON, D. C.—Terms of the Victory Liberty loan were announced on Sunday by Secretary Glass. They are:

Amount, \$4,500,000,000, oversubscriptions to be rejected.

Interest, 4% per cent for partially tax exempt notes, convertible into 3% per cent notes wholly tax exempt.

Maturity, four years, with the treasury reserving the privilege of redeeming the notes in three years.

The 3% per cent notes to be issued later also may be converted subsequently back into 4% percent notes.

The 4% per cent securities are to be exempt from state and local taxation excepting estate and inheritance taxes, and from normal rates of federal income taxes. The 3% per cent securities are exempt from all federal state and local taxes, except estate and inheritance taxes.

The size of the loan was much smaller than had been anticipated by most financial observers who looked for an issue of about \$6,000,000,000, particularly in view of Secretary Glass's past statements that the loan would be five or six billions.

This will be the last Liberty loan, Secretary Glass explained, although there will be other issues of government securities to finance belated war expenses. These will not be floated by popular campaigns.

Mrs. Auster Given Freedom by Jury

Kenosha Woman is Acquitted of Charge of Killing Husband

KENOSHA—Mrs. Anna Auster was acquitted of the charge of murdering her husband. Mrs. Auster thanked the members of the jury and Judge Belden, and then left the courtroom, accompanied by her children, in a happy frame of mind. Auster was killed on the night of Jan. 23, following a quarrel with his wife. He had been away for several days, presumably visiting a woman in Chicago. As soon as he stepped into the house his wife upbraided him for his treatment of her. A violent quarrel resulted, during which Mrs. Auster shot him.

CLOTH NOTE MURDER CASE TRUMP CARD

Message in Italian Pinned in Shirt is Read at Trial Today

BLACK HAND ACTIVE?

Stevens Clears Courtroom; Interpreters Hesitate to Act

in Case

BY JOSEPH K. KIDDER.

A message in Italian, penned on a piece of cloth in which John Mazzaro appealed to his wife to "do me please the charity tell all the facts," or else he would be her "lost husband," was one of the trump cards of the state, played in circuit court this morning when John Mazzaro, his brother, Tony, and Peter Messina are on trial.

The message was a complete surprise to the defense, and is considered one of the "worst blows" struck by Special Assistant District Attorney Harry Sauthoff since the trial started.

The message is alleged to have been written by Mazzaro while confined at the county jail and pinned in the sleeve of a dirty shirt which his wife was to wash.

The message was intercepted by the authorities, a translation made and then permitted to reach the wife who was later grilled by the state's attorney's office.

Mazzaro Reads Note.

John Mazzaro, on the stand in his own defense, was forced to read the message for the jury but up to the noon adjournment the state had not attempted to draw from him an explanation of the note. It is presumed this will come later when, it is said, the state is prepared to tear his splendid alibi, made Saturday, to shreds.

The translation of the note follows:

"April 28—18.

"My dear wife:

Let you know that the police know it all, of that fact which happened, of the dead police. Tell the truth, for Tony and Frank declared it all. Do me please the charity tell all the fact how it is and I will sign you lost (ruined) husband (Signed) Mazzaro Giovanni."

One postscript attached to the note said "and without tell to anyone that I told you this," while still another admonished her that "when you tell the truth say nothing to anybody because they can harm you."

Who Held Gun?

The introduction of the note is believed many to preface an attempt on the part of the state to show that the gun with which Dosch was slain was actually in the hands of Tony Mazzaro, brother of the witness, and one of the defendants. Repeatedly during the trial there have been answers gotten into the record showing Tony's activities after the arrest of his brother.

As a result of signs and signals made by spectators to the defendants Saturday, Judge Stevens this morning ordered the courtroom cleared of all except attorneys, defendants and newspapermen. So active have members of the Italian colony become in and about the courtroom that extra precautions have been taken to guard the chamber.

For hours before the convening of court this morning the hallways in the county building were crowded with fellow countrymen of the defendants. When the doors of the courtroom were thrown open there was a rush on the part of the Italians and they occupied nearly every seat of the first row in the area reserved for spectators.

Black Hand Signals.

John Mazzaro was on the stand and had been turned over to Attorney Harry Sauthoff, who is assisting District Attorney Roman Heilmann in the prosecution of the case. It was during the term of Mr. Sauthoff as district attorney that the murder was committed and it was largely due to his efforts that the

E. E. GIBBS IS PRESIDENT OF NEW COUNCIL

City Engineer is Held Open

Pending Report on Lake Monona

With the election of E. E. Gibbs, alderman from the second ward, as president of the council, and the appointment of John A. Simon to the place on the board of health vacated by Alderman Frank Alford, who resigned, no changes were made in the municipal slate in the caucus of the new council held yesterday.

The position of city engineer was held open until such time as the committee investigating the Lake Monona situation shall make its report. It was felt that no election of a city engineer should be made until more data has been obtained on this question.

O. S. Norsman was chosen to succeed himself as city clerk; William Ryan was renominated for city attorney; George Sullivan for street commissioner; E. H. Stadelman and Peter Gannon for assistant street superintendents and Philip Dean as building commissioner.

Standing committees will be named by Mayor Sayle at the meeting of the new council tomorrow.

PARIS—Germany under the peace treaty must pay \$5,000,000,000 in cash or the equivalent in commodities before May 1, 1921. She must also issue immediately to the allied and associated governments \$20,000,000,000 of interest bearing bonds. The interest on the bonds until 1925 will be either two or three per cent and after that date will be five per cent, according to the present plan.

The bonds will be payable in installments during a period of 15 years. They probably will be kept in the control of a central commission of the allied and associated governments so that they shall not be marketed in quantities sufficient to break the price.

Germany also must obligate herself to pay other amounts for damage done, appropriate to her means to be determined by a mixed commission of representatives of the allied and associated governments and of Germany, which shall report before May 1, 1921.

PARIS—Alarmed by the result of the bye election at Hull last week, in which the coalition candidate was defeated by a liberal, Premier Lloyd George, according to the Echo de Paris, has persuaded the council of four to revamp completely the financial plan to be incorporated in the treaty of peace. Instead of a payment of 25,000,000,000 francs on account and annual payments to be fixed by a commission, it has been decided to fix at once the amount which Germany will have to pay within 50 years. This amount is kept secret but it is indicated by the newspaper that a figure of 250,000,000,000 francs has been agreed on which includes all war damages as well as the cost of pensions. The first installment of 25,000,000,000 francs must be paid within 18 months, the newspaper declares.

Other newspapers however, do not mention any change in the terms but all information in French quarters agrees in regard to the Saare valley. It is said that it is settled the mines will become the absolute property of France which will police the region.

The region however will be administered by a board of directors under the league of nations. In the event that the inhabitants elect to return to Germany that nation will be obliged to buy back the mines, paying in gold. "To carry out this task would be no mean undertaking," say the commentators, especially those of the Echo de Paris and Le Journal, who declare it to be simply a reparation of the tangle regime which they say has been seen to be the equivalent of "most complete inertia."

Neither are the critics satisfied with the plan for military occupation of the left bank of the Rhine although the methods to be followed have not been finally decided on. It is stated in French quarters that this will be entirely in the hands of French troops who will guard the bridgeheads and railroad junctions. In addition there is to be a new 30 mile neutral military zone on the right bank of the river, it is said. These two measures will be in force only 15 years, French troops being progressively withdrawn as installments of the debt are paid by Germany, as was done by that country with France in 1871.

"Pertainax," writing in the Echo de Paris maintains that if France is left to guard alone the common good of civilization, she ought to be backed actively by a defensive alliance with England and America which is clearly defined in detail."

Because after the war the Government had to sacrifice raincoat material it had provided for soldiers—

Double Texture Raincoats for Men \$4.50

Cemented seams, big pockets and a good high collar are features which men will like in these raincoats.

Any man with a car will want one, too, for the times when he is tinkering with tires and gasoline and carburetors. As we said, these raincoats are of government material secured at a sacrifice by a New York manufacturer who made it up for us.

SINGLE texture coats would be unusual at double this price. But these raincoats at \$4.50 are of DOUBLE texture, which will give you better satisfaction and wear much longer. All sizes from 36 to 46.

Get ready for April showers. There are barely enough to last out one day's selling.

Latest Official Summary of the League Covenant

(1) The league of nations is founded to promote international cooperation and to secure peace. The league will include:

(A) Belligerent states named in a document annexed to the covenant; (B) All neutral states so named; and (C) in the future any self-governing country whose admission is approved by two-thirds of the states already members.

A state may withdraw providing it has kept its obligations to date, on giving two years' notice.

(2) The league will act through an assembly comprising not more than three representatives of each member state. Each state having only one vote and a council comprising for the present one representative for each of the five great powers and each of the four other powers as selected from time to time by the assembly.

The number of powers of each class represented on the council may be increased by unanimous consent of the council and a majority of the assembly. Other powers have the right to sit as members of the council during decision of matters in which they are interested.

In the council, as in the assembly, each state will have only one vote. Both these bodies are to meet at stated intervals (the council at least once a year), and at other times if required. Both can deal with any matter that is of international interest or that threatens the peace of the world. The decision of both must be unanimous, except in certain specified cases, matters of procedure, for instance, being decided by a majority.

The league will have a permanent secretariat, under a secretary general. The secretariat and all other bodies under the league may include women equally with men. A permanent court of international justice and various permanent commissions and bureaus are also to be established.

(3) Members states to agree (A) to reduce their armaments, plans for such reduction being suggested by the council but only adopted with the consent of the states themselves, and thereafter not to increase them without concurrence of the council; (B) to exchange full information of existing armies and naval and military programs; (C) to respect each other's territory and personal inde-

pendence and foreign aggression; (D) to submit all international disputes either to arbitration or to inquiry by the council which later, however, may not pronounce an opinion on any dispute whose subject matter falls solely within a state's domestic jurisdiction; in no case to go to war till three months after an award or a unanimous recommendation has been made, and even then not to go to war with a state which accepts the award or recommendation; (E) to regard a state which has broken the covenant as having committed an act of war to break all economic and other relations with it, and to allow free passage through their territories of those states which are contributing armed force on behalf of the league.

The council is to recommend what amount of force is to be supplied by governments concerned but the approval of the latter is necessary (states not members will be invited to accept obligations of the league for particular disputes, and if they fail to comply may be forced); (F) not to consider any treaty binding till it has been communicated to the league, which will then proceed to publish it, to admit the right of assembly to advise reconsideration of treaties and international conditions which do not accord with present needs, and to be bound by no obligations inconsistent with the covenant.

A state which breaks its agreement may be expelled by the council.

(4) The covenant does not affect the validity of international engagements, such as treaties of arbitration or regional understandings like the Monroe doctrine for securing maintenance of peace.

(5) Former German colonies and territories of the Ottoman empire are to be administered in the interest of civilization by states willing to be mandatories of the league, which will exercise a general supervision.

(6) Member states accept certain responsibilities with regard to labor conditions, treatment of natives, the white slave traffic, the opium traffic, the arms traffic with uncivilized and semi-civilized countries, transit and trade conditions, public health and Red Cross societies.

(7) The league is recognized as the central body interested in coordinating and assisting international activities generally.

(8) Amendments require approval of all states on the council and a simple majority in the assembly. States which signify their dissent from amendments thus approved are not bound by them, but in this case, cease to be members.

PARIS—Premier Lloyd George's trip to England will be a brief one according to the Petit Journal today. He will be back in Paris Friday, the newspaper says.

The peace conference leaders have come to an understanding regarding the date when the German delegates shall be called into conference, the Petit Parisien says. It understands that date, it declares, is close at hand, before April 20.

(By the Associated Press)

LONDON (Sunday by British Wireless Service)—The main items of peace with Germany have been substantially agreed on by the council of four, the Paris correspondent of the Sunday Observer says. He understands that the only problem which they have not yet approached is that of the Bohemian border, he says. This problem, he points out, is an intricate one as it raises the question as to whether a considerable number of Germans must be included in the Czechoslovak state.

Minor Questions Left

"As for the other points concerning the German borders" continues the correspondent. "It seems that it only remains now to decide on some minor questions. The question of Danzig will likely be settled by setting up a kind of autonomous state in that district while including it in the Polish customs area."

As for the Saare Valley, the correspondent says, he understands that President Wilson has definitely agreed to the proposal originated by Premier Lloyd George which essentially consists in giving France ownership of the mines while making the Saare district a neutral state under the guarantee of the league of nations.

The questions of reparation and of disarmament in the Rhine region he says, seem also to have been more or less settled in their broad outlines. Moreover, he points out, the covenant of the league of nations has been redrafted. "One of the main amendments consisting in recognition of the Monroe doctrine as being in conformity with the principles of the league."

Treaty By Easter

The correspondent continues: "Whether the treaty will be ready by Easter, is of course, another question. The important fact is, however, that the council of four seems to have agreed on all the fundamental points. This is a distinct improvement."

On the subject of the western border of Germany, the correspondent states he has it on good authority that Premier Clemenceau's main object has been to pave the way to a settlement that "should be entirely based on that idea of right which since 1870 has been embodied in Alsace-Lorraine and that the settlement of the Czechoslovak question should be entirely acceptable to the English speaking democracies."

"Those who believed he would try to annex to France the whole or part of the left bank of the Rhine entirely misunderstood his intention," the correspondent declares. "Truly enough when the question of the western border of Germany came up before the council of four as asked at first for a rectification of the frontier which would amount to re-establishing the French border of 1814. To understand such a demand it must be recalled that the comparatively small district extending between the borders of 1870 and the border of 1814 includes places such as Sarrelouis where 80 per cent of the inhabitants are said to be in favor of reunion with France."

"Still as objection was raised inside the council of four that such a step might be interpreted as amounting to annexation, the French government made it clear March 28, that it did not want to maintain its demand if Great Britain and America deemed it to be objectionable. Since that date the French government has confined itself to claiming that the coal of the Saar valley was due to France as a part of the reparation."

"This principle was agreed to by all parties as it is recognized that the transfer of the mines is but inadequate compensation for the havoc deliberately wrought in northern France by the Germans. The solution of the Saar problem was suggested last week by Mr. Lloyd George. It consists in giving the Saar a kind of autonomy resembling that of Luxembourg. The local authorities would remain free from any interference on the part of either the French or the German administration, the political status of the district being, besides, guaranteed by the league of nations. That suggestion was carefully worked out by a sub-committee. The scheme was laid before the council of four early last week and heartily supported by Mr. Lloyd George."

Why Oil Royalties are the Most Profitable of All Safe Investments

Bulletin No. 2

Oil Royalties absolutely eliminate the element of speculative risk existing in the most profitable of all industries—the industry of PETROLEUM. They represent a certain interest in ACTUAL OIL PRODUCTION, and participate to that extent in the earnings.

With this arrangement your funds are not dissipated by unproductive drilling operations. There are no additional expenses or assessments. You receive the NET EARNINGS of the Oil Royalty.

Many have gained an erroneous and unwarranted idea of the value and possibilities of Oil Royalties by construing them as "shares" of stock in promotion schemes. Oil Production is a criterion of REAL PROFITS. Promotion is a gamble, pure and simple. Oil Royalties are based on PROVEN OIL TERRITORIES and ACTUAL OIL PRODUCTION; divitiation from which constitutes a promotional project.

The fact that many large financial institutions are interested in and RECOMMEND Oil Royalties for INVESTMENT, is sufficient and conclusive PROOF that these are investments of ASSURED EARNINGS and with money making possibilities.

Titles to all Oil Royalties are held in trust; Certificates of Oil Royalty Ownership are issued; and all earning disbursements are made by check direct to the Unit holders by a large Banking or Trust Company, payable monthly.

After a very thorough examination of all LEGITIMATE and SAFE INVESTMENTS, we are convinced that Oil Royalties are the most profitable of all those that are safe. They combine SAFETY of the PRINCIPAL INVESTED, with interest, together with SPECULATIVE PROFITS.

We have selected the STANLEY-RALSTON ROYALTY as one that we can RECOMMEND to our most conservative and exacting clients. It is now earning more than 20% per annum on the purchase price of the Units.

RIGHT HERE, let it be clearly understood, that we are confining our financial activities exclusively to the handling of Oil Royalties and Oil Production of unquestionable MERIT, that have been EXAMINED and APPROVED by our own expert Engineers and Geologists.

OUTLOOK FOR BIG CROP IS PROMISING

State Department makes Survey and finds Wheat Fields good

The outlook for a large production of winter grains in Wisconsin this coming harvest is very favorable, according to the April crop report of Joseph A. Becker of the Wisconsin Co-operative Crop Reporting Service (U. S. Bureau of Crop Estimates and Wisconsin State Department of Agriculture).

Winter Wheat—The present condition of winter wheat gives promise of 89 per cent of a full crop as compared with 93 per cent on Dec. 1, 1918, 81 per cent for the 1913 crop on April 1 last year, and a 10 year average of 89 per cent on April 1. With a planted acreage of 103,000 acres, a total production of approximately 2,100,000 bushels is forecasted. No estimate of the acreage which will be abandoned (not harvested) will be made until May 1, but from comments of correspondents it will be less than for many years. The harvested acreage in 1918 was 58,000 acres, the total production 1,286,000 bushels. The condition is highest in the southern counties and lowest in the western counties in the vicinity of La Crosse.

Rye—The condition of winter rye gives promise of 93 per cent of a full crop, compared with 95 per cent on Dec. 1, 1918, 88 per cent for the 1913 crop on April 1 last year, and a ten year average on April 1 of 91 per cent. With a planted acreage of 489,000 acres, a total production of approximately 8,500,000 bushels is forecasted. The acreage of rye harvested in 1918 was 436,000 acres, the total production 7,674,000 bushels.

Breeding Sows—The number of breeding sows on Wisconsin farms is estimated to be 4 per cent greater than a year ago, a total of approximately 555,000 compared to 533,000 a year ago and 496,000 on April 1, 1917.

Farm Labor Supply—An estimate of the supply of farm labor shows the supply this year to be 85 per cent of normal, a year ago 75 per cent of normal.

ADVERTISMENT THE ONLY REMEDY THAT HELPED HIS SICK HEADACHE

Iowa Resident Suffered Intense Pain Until He Used the Tonic Treatment

There are few ailments that cause more genuine misery than sick or nervous headaches. Only those who have endured suffering for days at a time realize the awful agony of the victims. Light and noise increase the pain, food is unthought of for it only adds to the distress. When the attack is on there is little to be done until it passes away. This may mean hours and it may mean days.

Nearly every victim of sick headache suffers from thin blood and weak nerves, the latter being the result of the former. One of the most successful treatments therefore for sick headache is a remedy that will rebuild the blood so that it can carry nourishment to the starved nerves. By building up the blood and nerves the attacks of headache become less frequent and severe.

The effectiveness of the tonic treatment is illustrated in the case of Mr. George W. Spencer of No. 415 Court street, Sioux City, Iowa. He says: "I began to have severe headaches and nervous spells about eight years ago. I had worked pretty hard and I believe this undermined my health. Whenever the headaches came on I would be completely prostrated. They shattered my nerves so that I suffered for days with a terrible pain across my temples and a pressing down pain on the top of my head. I couldn't sleep while the attacks lasted and I seemed to tremble all over."

"A friend told me that he had been benefited by taking Dr. Williams' Pink Pills. I procured a box and began treatment. The first attack which followed the treatment was less severe and was over in a short time. I continued the treatment and found the remedy of wonderful benefit. My nerves have quieted, I sleep soundly and have regained my strength. Dr. Williams' Pink Pills are the only remedy that ever helped me and several of my friends have been influenced to try the pills on my recommendation."

Your own druggist can supply you with Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write for the free booklet, "Building Up the Blood."

ALLENBY IN STATEMENT ON EGYPT RIOTS

Troops Are Used to Put Down Trouble; Many Are Killed

(By the Associated Press)

CAIRO (Saturday)—An official statement issued at the headquarters of Gen. Allenby, special high commissioner for Egypt and the Sudan, today reads:

"Since noon yesterday quiet has prevailed throughout Egypt. An attempt Thursday to tamper with a railway resulted in five arrests while to interfere with telegraph communications resulted in the village of Beni Semli being surrounded and given three days in which to produce the guilty persons. Friday two rioters were killed and one was wounded when they were caught cutting telephone wires near Quesna.

"A deputation of prominent Alexandrian citizens has cabled the commanding officer, deploring disorders Thursday and expressing appreciation of the forbearance of the troops.

"Four hundred persons have been arrested.

"Apart from collisions with mobs April 8, 9, 10 and 11, four officers and fifteen men have been killed through attacks on individuals. The police report the civilian casualties for the 24 hours ending at noon Friday as being 8 killed and 15 wounded."

SAFETY of Investment in Oil ROYALTIES

A Syndicate is usually organized and a purchase is made of a part of all of the one eighth (1/8) royalty received by the owner of the title of the property. After the Royalty has been bought and paid for by the Syndicate it is divided into equal units, the number of units being fixed in the trust agreement made between the Syndicate and some designated Bank or Trust Company which acts as Trustee. The profits for each Unit are derived from the moneys received from the pipe line company which buys the oil, and which is paid for twice per month, the checks being made to the Trustee. The fund that is accumulated from one month's payments for oil is subdivided among the Unit holders as dividends, which are paid by check of the Trustee to each Unit holder direct the first of each month. This form of oil investment has decided advantages over that of stock investments in some oil companies that are so common in all oil fields, only few of which have been instrumental in the development of this great industry. Royalty Unit holders are not liable for assessments; all of the responsibility resting on the shoulders of the operating oil company.

GREAT OLD REMEDY FOR SKIN DISEASES

S. S. S. Clears Skin of Eruptions—Drives Poison From the System

Get it fixed in your mind that skin eruptions, Scrofula, Eczema, itching, itching skin, and all skin diseases are due entirely to impure and infected blood. If the trouble was on the outside of the skin, by simply washing and keeping it clean you could obtain relief—not even permanent, lotions, and salves would be necessary. Agree with us in this belief, and your trouble can be removed—you can be entirely restored to health. S. S. S. is a purely scientific treatment that you can get from your own druggist—it is a blood tonic that will purify your blood and cause a most decided

abatement of your trouble, and finally make you entirely well. Fifty years ago S. S. S. was discovered and given to suffering mankind. During this period it has proven its remarkable curative properties as a blood purifier and tonic, and has relieved thousands of cases of disease caused by poor or impure blood, or chronic or inherited blood diseases. You can be relieved, but you must take S. S. S. Take it if only pimples appear, for they denote bad blood, and may be followed by the sufferings from torturing skin eruptions. Therefore be sure. Don't take chances. Don't use lotions. If yours is a special case, write for expert medical advice. Address Medical Director, 238 Swift Laboratory, Atlanta, Ga.

Oriental Rugs LAST A LIFE TIME

Our Oriental Rug Window has attracted many buyers. Don't miss our window.

It's true that an Oriental can be used in other rooms besides the favored living room—because it can stand heavy wear. When you consider this they are not expensive.

POOR ARGUMENT

SOME of the logic that is now being used in condemning the wisdom of the strike at this time indicates the moral plane from which our Madison employers are viewing the situation. Evidently the dollar mark is the sole test which governs the motives and the attitude of the employers in the present controversy.

It is being said that this is a poor time to strike because the plants have but little work and that they therefore are in a position to fight the demands of the men.

If that is true, all the more to the discredit of the employers. Last August it wasn't true. The employers were then running night and day and every time the clock ticked a goodly measure of profits were headed toward their coffers.

Supposing that the employees would have said then: "Well this is a GOOD time to strike. They have got to have us now. They will pay any price and grant any demand so that they can get these big profits."

Did the men do that?

The government hustled representatives here who appealed to the men. They appealed to their patriotism. The men could have gotten in ten days THEN what they are fighting so hard to obtain NOW.

But the men heard the call of their country. The government told the men that the employers had also heard the call of their country.

Do you remember how much talk there was last August about how capital and labor should stand together against the enemy?

Labor took Uncle Sam at his word. It now appears that labor made a mistake when it thought that the employers' promise to Uncle Sam was good. Labor here remained true to Uncle Sam. The employers, who fooled this community by joining loyalty leagues, by marching in front of drafted men, by having their names printed on front pages for large subscriptions to liberty bonds and by seizing various war activities are now, when it means a REAL monetary sacrifice telling Uncle Sam that they will not stand by their word.

The employers will not raise themselves in the estimation of this community by saying: "Well what are you going to do about it NOW?" We had a lot of work to do last fall and we were making a lot of money and we were willing to deal with the men. Now, however, we haven't so many orders and we are going to close down our plants if we have to."

Is the stand being taken by the Madison employers in compliance with any of the usual standards that men set in point of honor and plain every day decency?

WHAT WOULD HE SAY?

MR. CARL A. JOHNSON, president of the Gisholt Machine Co. was a member of the Madison draft board.

Supposing that the boys who were sent to the front at \$30 a month because Uncle Sam asked them to do it were to meet Mr. Johnson NOW and ask him to explain HIS attitude at the present time?

Just what would Mr. Johnson say to these boys?

WHEN THE PEOPLE GET THE FACTS

WE ARE glad to note that the legislative roll calls that are being published in The Capital Times are having some effect in bringing to the people the doings of their representatives in the legislature. We are in receipt of the following letter signed J. K. received from Cambridge, Wis.:

Assemblyman John Porter who has been the chairman of the town of Oakland in Jefferson county for twelve years has just been defeated for reelection. Mr. Porter owes his defeat to the roll calls that were published in The Capital Times. These roll calls were circulated through the district by Porter's opponents and the reactionary record of Mr. Porter in the assembly turned many votes against him. If The Capital Times could be placed in every legislative district in the state we would soon have a different legislature than we now have.

The following editorial is taken from The Kaukauna Times:

Anthony McClone, representative from the second Outagamie county assembly district in the state legislature, according to a recent list of roll calls published by The Capital Times of Madison, has the remarkable but enviable distinction of being marked as absent 8 times when the vote was taken on 11 legislative measures. He voted No on the resolution to suspend the rules and pass the prohibition measure, Yes on the bill providing for an elective railway commission and No on the Lerche resolution to place packing plants under government ownership.

Among the measures on which Mr. McClone stands marked as absent were, government ownership of coal mines, the resolution revealing profiteers' figures, the repeal of personal property offset, providing for a constitutional convention, the initiative and referendum, repeal of state life insurance, fund, investigation of packing plants and investigation of farm machinery.

Possibly, Mr. McClone was absent from roll call

by reason of his arduous duties in committee rooms, perhaps not. Possibly his position on the county board required his presence at home, and if so we have a verification of the saying that no man can serve two masters, his township and his assembly district.

But whatever the reason his legislative record stands in marked contrast to that of Outagamie county's other representative, Clinton B. Ballard who on all these eleven important measures was present and voted in the affirmative. The Times does not always endorse Mr. Ballard's positions nor accept his ideas but his legislative record calls for as much praise as that of Mr. McClone's calls for censure.

We have also been informed that The Capital Times' roll calls circulated in Brown county contributed to a large extent to the defeat of Assemblyman Delaney for some local office.

It is pleasing to note that the work that has been done by this paper in getting the situation regarding the legislature before the people is bearing some fruit. It is an indication that the people can be depended upon to do the right thing if they only get the facts.

How many newspapers in Wisconsin are giving their readers the information as to how their representatives in the legislature are voting?

On the Side

ANTI-TOBAC

Good-by, cigar!
You're out on your way,
You thing of hay,
And oats and grain.
The paring does
Not give me pain.
For since the war
Began to shoot
They've filled you full
Of foreign loot.
And now we wonder,
As you're 'bout to go,
What will they do
With all the hemp they grow?
Farewell, hip pockets!
Your world-work is done,
No more the festive pint—
It's exile has begun.
And you're not needed
To hold a pack of
Choice playing cards
Or eating tobacco.

"OUT TO LUNCH"

We often wonder if people do anything else than eat.
We have been trying to get a certain man on the phone for three months, and nine times he has been "in conference" and twenty-seven times "out to lunch."

He has been "out to lunch" at 10 o'clock in the morning and at 3 o'clock in the afternoon, being a man, we take it, with a ninety horse-power appetite. Finally, we evolved a beautiful plan. It so happened that we knew the janitor of the building in which this hardy trencherman has his office. We decided to find out at once whether this man was putting one over on us. We would ask friend janitor.

Bubbling over with excitement, we called the switchboard in the building at 3 o'clock one afternoon and asked for the janitor.

"Sorry," said the girl, "but the janitor is out to lunch."

One astute observer remarks that no matter what happens in Paris, it will be a hard job to do away with secret diplomacy in bone-dry Washington as long as the foreign embassies remain wet.

AND THEY SAY WORK IS SCARCE!

"Wanted—I want a man to work in a kennel of dogs. He must have experience with poultry. Room, light and heat furnished. He must take care of self. References required. Apply to ————Adv. in Suburban Paper."

IT IS A SHAME TO JOIT THE POOR KITTY TO DEATH

Arthur Benjamin, a young man living in Kentishtown, was fined \$5 at the Marylebone police court yesterday for cruelty to a cat in tying a piece of rag about its neck and throwing it on top of an omnibus in Maiden road.—London Times.

What will become of the old boys who have reached 117 years and have taken a drink every day of their lives? Now they must look forward to living forever, if the prohibition arguments are good.

AWARDED CROSS.

ASHLAND—Lieut. Percy Smith of this city has been awarded the Croix de Guerre for bravery in action on the Russian front.

State News

IN MEMORIAL SERVICE.

NEENAH—The participation of several soldiers of the U. S. A. who have fought and bled upon the battle fields of France in the recent war will add impressiveness and significance to one of the largest memorial day celebrations ever planned for the Twin Cities. Preparations for this event are already under way.

WHITE WAY GOES.

NEENAH—Neenah's "Great white way" will soon be a thing of the past. The arches erected several years ago to illuminate the downtown district on gala occasions are to be dismantled and torn down. They have been declared a menace to traffic and pedestrians in their present dilapidated state.

MERRILL TROOPS COMING.

MERRILL—Indications are that the 57th Brigade of which Battery F of Merrill belongs will return to the United States with the 32nd division. It was recently stated that the brigade would be detained in France but a copy of army orders shows instructions assigning them home.

JOHN WALSH QUILTS.

ASHLAND—Attorney John Walsh of Washburn has tendered his resignation as chief counsel for the Federal Trade Commission. It is reported that he has been offered a very promising position as counsel for some large concern operating in the south.

ELKS BAN LIQUOR.

ASHLAND—By an almost unanimous vote, the local Elks assembled voted to keep liquor out of the club house, even when the city goes wet.

GETS CITATION.

MARINETTE—First Serg. Henry C. Campbell of Marinette, who served with the Mallet Reserve, an American organization in the French army, was one of the five sergeants in that organization who was given a citation by Commander Doumenc. He was commended for his work in four battles of the Somme defensive, the Marne defensive, the Somme offensive and the Meuse offensive. He went overseas in December, 1917.

GIVEN SERVICE CROSS.

MARINETTE—Corp. Isaac Chandler, Menominee, member of Co. L, 125th Infantry, was one of the 18 men who were given the distinguished service cross in the 32nd division. Writing home, he says: "I was the sixth one to be decorated by Gen. Pershing."

TRY TO OPEN SAFE.

SHEBOYGAN—An unsuccessful attempt to open the safe of the Wisconsin Auto Market resulted in a predicament the next morning when Gustave Helming, manager, was unable to open the door because an iron rod had been rammed so tightly through a hole which had been drilled through it, that it could not be pulled out. Several men employed every tool in the garage but to no avail. Finally a hole was made in the door with a blowpipe flame. There was \$150 in cash and Liberty bonds in the safe but they were left secure. A suspect, 28, five feet eight inches tall, is believed to have left the city for Milwaukee.

AT THE NEW STRAND

SIS HOPKINS
Goldwyn Picture

Platform of New Labor Party Adopted at Illinois Convention

1—Democratic control of industry and commerce for the general good of those who work with hand and brain and the elimination of autocratic domination of the forces of production and distribution either by selfish private interests or bureaucratic agents of the government.

2—The qualified right of workers to organize and to deal collectively with employers.

3—The freedom from economic hazard which comes with a minimum wage based on the cost of living and the right of the workers to maintain, without the labor of mothers and children, himself and his family in health and comfort, with ample provision for recreation and good citizenship.

4—Leisure in which to improve the mind and body by the institution of a maximum working day of 8 hours.

5—Abolition of unemployment by reducing the hours of work as necessary to permit all who are able to work to find occupation and full pay for those, who for a time are unemployed because of illness, accident or temporary loss of work.

6—Equality of men and women in government and industry with complete enfranchisement of women and equal pay for men and women.

7—Reduction of the cost of living to a just level, immediately, and as a permanent policy, by the development of cooperation and the elimination of wasteful methods, middlemen and all profiteering in the creation and distribution of the products of industry and agriculture.

8—Complete revision of the state constitution to reclaim it for the people, so that instead of its being, as at present, the fortress of reactionaries and the backbone of the big business organizations that grip the state, it will become the bulwark of the workers, built upon the theory of guaranteeing human rights instead of exalting property rights. Now, the workers' measures are unconstitutional. It must be rewritten so that the proposals of crooked big business will be unconstitutional. It must be made easy to amend. It must give the state a new and just revenue system. It must guarantee the initiative, referendum and recall. It must release the bonding power of communities so that public ownership and operation are made possible.

9—Taxation of inheritances and incomes at a graduated rate progressing with their size, and taxation of land values but not of improvements.

10—Public ownership and operation of all public utilities, including grain elevators, ware-

houses, stockyards, abattoirs, insurance and banks. Development under public ownership of waterpower sites. Public ownership, preferably federal, of the mines of Illinois, and in the meantime state regulation which will prevent wasteful competitive methods of mining.

11—State aid to provide lands and homes for Illinois residents.

12—Abolition of employment of all children under the age of 16 years.

13—A democratic system of public education from kindergarten to university, with free text books and with opportunity for full cultural and vocational education for every child. Re-education of disabled soldiers and the application of the same restorative treatment to disabled industrial workers.

14—Old age and health insurance, an adequate workmen's compensation law and a mother's pension that will put an end to child poverty and permit the full development of every child under its mother's care.

15—Use by the state of only such supplies and materials as bear the union label, including school text books.

16—Full political for civil service employees.

17—Abolition of private employment, detective and strike employment services to make these agencies for finding jobs for workers instead of merely finding workers for jobs and to prevent them from placing workers in positions that do not pay a living wage.

18—Abolition of the state senate.

19—Abolition of the power of judges to issue and enforce injunctions to deprive citizens of their rights in industrial disputes and enactment into law of the rights of citizens to trial by jury for contempt of court committed elsewhere than in the presence of the court.

20—No law to be declared by the supreme court unconstitutional unless three-fourths of the judges so decide.

21—All state work to be done not by contract, but directly by the state.

22—The development of cooperative trade and industry and enactment of needed legislation favorable to that purpose.

23—Complete restoration of all fundamental political rights—free speech, free press and free assemblies; the removal of all war time restraints on the interchange of ideas and the movement of people among communities and nations; and the liberation of all persons held in prison or indicted under charges due to their championship of the rights of labor or their patriotic insistence upon the rights guaranteed to them by the constitution.

AT THE THEATERS

AT THE NEW STRAND

Mabel Normand's "Sis Hopkins" Funnier Than Rose Melville's Goldwyn star gives greatest performance of her career in the picture of the play, that made thousands laugh at the Strand theatre.

"Sis Hopkins"—Mabel Normand! From now on admirers of Goldwyn's unique comedienne will never dissociate one from the other. Mabel Normand bids fair to score the greatest hit of her lively career.

Completely sinking her own personality into that of the Hoosier hoyden, she achieves a feat of acting like nothing she has ever done. Mabel Normand is the character already known in every city, town, and hamlet of America through the success of the stage play in which Rose Melville, who assisted Miss Normand in costuming the part, declared that it was a nationally successful stage play.

There is a touch of histrionic genius in Mabel Normand's portrayal of "Sis Hopkins," and this, together with an absorbing story, dramatic and convulsively funny by turns, causes Goldwyn to predict a success which will sweep the nation. Mabel Normand will justify every belief in her right to occupy a place in her profession—and in the hearts of her admirers—that she has never held before.

"Sis Hopkins" will be shown at the New Strand last times today, "Hard Boiled."

Dorothy Dalton in her latest Paramount production entitled "Hard Boiled" together with the James Montgomery Flagg comedy "One Every Minute," will be the attractions scheduled at the New Strand tomorrow and Wednesday.

ORPHEUM

The best show that has been seen at the Orpheum in many moons, opened yesterday before three large sized and well pleased audiences. Every act on the program is good. The Pearson Trio, acrobatic dancers, started the fun and for clever work and original ideas, they are deserving of praise. Frisco, the man who has made several records for the Edison Phonograph Company, is on the bill, and received many encores for his rendition of classical and popular numbers. "Public Service," a comedy playlet with a plot somewhat different from the rest, that have been seen here, with lines and situations of original nature, was presented by Mattie Choate and Company. The four people in this organization play their parts very well. Walmsley and Myers kept their audience in laughter with a singing and comedy offering. For beauty and artistic coloring effects, La Graciosa, in "Visions in Fairyland," is prettily presented, and an act that is well worth seeing. In-

La Graciosa Now at the Orpheum

ternational News pictures, showing several land and sea views, is the opening feature. The Orpheum patron the first half of this week will surely not want for fun and amusement.

MAJESTIC.

"A Woman's Experience," in which the fascinating star, Mary Boland, is the leading lady, will be shown at the Majestic today. The story was written by that master of drama, Paul M. Potter, author of "Tribby," and other famous stories. "A Woman's Experience," even though it deals with problems of married life in exclusive society, develops many new and thrilling situations.

"THREE FACES EAST"

Anthony Paul Kelly, the author of "Three Faces East," the new secret service play, at the Fuller Saturday, is a Chicago man. Only a few years ago he was a student at Purdue college.

ORTON.

"The Arms and the Girl" is the picture at the Orton tomorrow. It is a thriller, with a spy in the theme.

AT THE FULLER.

Tom Moore, supported by Seena Owen and Sidney Ainsworth, is the attraction today at the Fuller, appearing in the Goldwyn picture, "A Man and His Money," together with the two part Parsons comedy, "Jelly Fish." In "A Man and His Money," Mr. Moore, the popular Irish screen star, has one of the most pleasing roles in which he has had the good fortune to appear in a long time; the story contains plenty of human interest, thrills and romance.

Daily Health Talks

GOING BACK TO NATURE.

BY DR. W. LUCAS.

People get sick because they go away from Nature, and the only way to get all is to go back. Something grows out of the ground in the form of vegetation, and almost every ill. Some of these vegetable growths are understood by man, and some are not. Animals, it could seem, know what to do when they are sick better than men and women. Observers have noted that a sick horse, dog or cat will stop eating and seek out some vegetable growth in the field or yard, which, when found and eaten, often restores appetite and health. Haven't you seen these animals do this very thing yourself?

Dr. Pierce, of Buffalo, N. Y., long since found the herbs and roots provided by Nature to overcome constipation, and he had these vegetables collected and made up of Mayapple, leaves of Aloe, root of Jalap, into little white sugar-coated pills, that he called Dr. Pierce's Pleasant Pellets. You must understand that when your intestines are stopped up, poisons and decayed matter are imprisoned in your system, and these are carried by the blood throughout your body. Thus does your head ache, you get dizzy, you can't sleep, your skin may break out, your appetite declines, you get tired and despondent. As a matter of fact, you may get sick all over. Don't you see how useless all this suffering is? All that is often needed is a few of Dr. Pierce's Pleasant Pellets, which he has placed in all drug stores for your convenience and health. Try them by all means. They are probably the very thing you need right now.

1,000 TUMBLE IN AT ALPHA PHI DANCE FOR RELIEF FUND.

Over 1,000 people "tumbled in" at the Candy shop Saturday afternoon to enjoy the benefit cabaret given by the Alpha Phi. From 3 to 8 o'clock a constant stream of students swarmed in and out, dancing, eating, or watching others dance or eat. Small tables were placed around the hall and the chapter girls served regular supper after 6 o'clock.

The stunts were given as planned at two different times. Julia Van Aiken led a Japanese stunt in which the actors were Ethel Custer, Thelma Stevens, Dierdra Cox, Kitty Lou McCain, Clarice Winchester and Doris Cooper.

The profits realized amounted to about \$200.

HESPERIA SELECTS TWO DEBATE TEAMS

Tryouts for the sophomore semi-public debates were held by Hesperia Friday evening. Two debates were heard in which the questions of the immigrant literacy test and compulsory unemployment insurance were discussed. Two teams were elected to represent the society in the sophomore debates with Athena and Philomathia. Those elected, with the number of points won by each in the evening's debate, are:

Edward K. Clear—55.
Earle J. Tower—54.
Ko Kwei Chen—55.
Carl H. Lann—50.
William Wagner—50.
Steven Aschenbrenner—36.

TWO STUDENTS ARE CITED FOR BRAVERY

Two more university men have been cited for heroism. Lieut. Maurice E. Barnett, Jr., and Lieut. Shannon, both of the Sixth Marines have been mentioned in the volume "With the Help of God and a Fed Marines" written by Brig. Gen. A. W. Catlin, commander of the Sixth Regiment of marines at Chateau Thierry.

In addition, Lieut. Barnett, who was a Phi Psi, was recommended on Oct. 11, last, for the Distinguished Service cross and the Croix de Guerre.

Banquet Tuesday for Backers of Movement to Keep Childs in China

About 150 faculty members interested in the "Wisconsin in China" campaign that opens Wednesday, April 16, will attend the annual meeting and supper of the organization which is keeping "Jack" Childs in China, at the university Y. M. C. A. Tuesday evening, April 15 at 6:15 p. m.

It is expected that 200 will be present at the meeting. Most of the 102 faculty members of the organization and about fifty new members who are coming for the first time will listen to reports and speakers who are interested in the work for China. There will be seventy student workers at the supper also.

Proxy Birge Presides

President Edward A. Birge will preside at the meeting. This is the beginning of his connection with the movement and the faculty members interested feel honored with the part he is to take. Dr. J. E. Williams, vice-president of the Nanking university of China, will be the principal speaker at the meeting. He will discuss the problem the returned student faces in Peking.

Dr. Williams will address the students in the convocation that has been called for Wednesday afternoon. He spent some time working with the Chinese students at Tokyo and will tell of the nature of his work and its importance.

Will Lay Out Campaign

Prof. Eugene A. Gilmore, who spent three weeks with Childs in Peking, will tell of his personal observations of the work done by Wisconsin's representative. Prof. Edward A. Ross will address the meeting and will tell of the progress made by Childs.

Sec. F. O. Leiser of the city Y. M. C. A. has been asked to speak at the supper. Secretary Leiser spent a number of years in China and knows the problems that must be met by workers there.

The campaign among the students which will cover the period from Wednesday to Friday will be laid out, each worker receiving the names of the men he is to see. The election of the officers to preside for the following year will be taken up as part of the business.

MRS. MOSER NOW ABLE TO DO HER OWN HOUSEWORK

Milwaukee Woman Says Before Taking Tanlac It Was an Effort to Walk

"Before I had finished my first bottle of Tanlac I knew that I had found just the medicine I needed," said Mrs. Gertrude Moser who lives at 1918 Cold Springs Ave., Milwaukee, while in conversation with a Tanlac representative the other day. "I was certainly in a badly run-down condition when I commenced taking Tanlac," continued Mrs. Moser, "and although I had been trying for more than two years to find something that would relieve me, I had failed altogether until I finally decided to take Tanlac. My appetite was very poor and what little I did eat wouldn't digest properly, and I would be positively miserable for two or three hours after meals. I would often suffer with shortness of breath so bad that I was hardly able to breathe. I was exceedingly nervous, and rarely ever got a good night's sleep, and would feel just awful when I got up every morning. I continued to go down hill until I was so weak and worn out that it was really an effort for me to walk around in the house, and it was simply out of the question for me to do any part of my housework."

"I had read so much about Tanlac and the good it was doing other people that I decided to give it a trial myself, and I am more than delighted with the big improvement it has made in my condition. I feel much better in every way than I have for a long time. I have only taken two bottles of Tanlac so far, and my appetite has improved wonderfully, and I eat just anything I want and I never suffer from indigestion afterwards. I am not bothered with shortness of breath now, either, and my nerves are in such perfect condition that I sleep just fine every night. I am so well and strong that I can now do all my housework without the least trouble, and am gaining in weight every day. Tanlac is a great medicine and as long as I live I will have nothing but words of praise for it."

Tanlac is sold in Madison exclusively by A. B. Luckey and Sons.

LA FOLLETTE'S RUSSIA MOVE NOW APPROVED

State Officials Tardy in Backing up Wisconsin Senator for Troops Recall

The movement started by United States Senators Robert M. La Follette and Hiram Johnson, California, to have United States troops recalled from Russia, has finally stirred the people of Wisconsin to such an extent that petitions are being circulated for the return of these troops. On his recent visit here Senator La Follette also expressed the view that the troops should be recalled. Long ago La Follette made a fight on the floor of the senate to get information on why our troops were there.

State officials, headed by Gov. E. L. Philipp and Chief Justice John B. Winslow, practically every member of both houses of the legislature and officials and employees throughout the capitol have signed the petition and it has been dispatched to Washington.

The name of Gov. Philipp heads the list, followed by that of Chief Justice Winslow, father of Capt. Horatio Winslow, who is leading one of the American companies against the Bolsheviks and who was recently decorated by both the French and British governments for conspicuous bravery in action.

Interest in the campaign to secure the release, not only of the Wisconsin men in Russia, but of all other American soldiers, has been stimulated by the near mutiny of the Michigan troops when sent against the Bolsheviks.

"I believe these boys should come home. I know of no reason for their going there in the first place," said Col. John Turner.

"The sooner the soldiers in Russia are returned the better it will be for all concerned," said Assemblyman Eber Simpson of Oshkosh. "We have no right in Russia at this time."

"If there seems nothing more for the soldiers in Russia to do, I am firmly of the opinion that they should be brought back to America," said Senator A. H. Wilkinson, chairman of the joint finance committee.

Senator Louis A. Arnold of Milwaukee stated that he believed the Americans should have come home from Russia immediately after the signing of the armistice.

WOMAN ON BOARD TO REPLACE MAN

The forensic board for the first time in its history has a woman representative and officer. Marguerite L. Schulz, a sophomore in the course in journalism was elected secretary and treasurer to succeed Joseph Beach, who recently resigned.

The board at its meeting Saturday set the date of the freshman declamatory contest for April 23 and also decided to bring Henry L. Southwick, president of the Emerson College of Oratory at Boston to the university to give an interpretive recital of Othello.

All freshmen men and women are eligible to enter the declamatory contest. Details as to the material which may be used in the contest will be announced later.

FORUM WILL BRING WISCONSIN PLAYERS

The Wisconsin players, who are touring the state and presenting plays written by Wisconsin playwrights, will be in Madison the evening of May 3. They will give three one act plays and a curtain raiser in the auditorium of the Madison high school. One of these plays will probably be "The Twelve Pound Look" by Barrie and another "Neighbors" by Zona Gale.

The committee in charge of the players is composed of Margaret Fisher, Dorothy Reed, Howard Eaton, Ede Knowler and Grace Cleary. Tickets will be sold down town and on the hill for \$1 down to 25 cents, including war tax.

"Cannibals of the South Seas"

The Most Astounding, Unusual and Unconventional Motion Pictures Ever Taken.

A Smashing Spectacle of the Human Savage as He Exists Today

Savages who never before saw a white man, who never before knew of fire arms, who might easily have been the inhabitants of a distant planet.

Women who have never worn clothes and who prove that both clothes and vulgarity are the products of a prudish civilization.

WHAT YOU WILL SEE

The most savage people on earth, under native conditions, glimpses of their daily life and a complete picture of their Cannibal customs.

The brutal chieftain of a murderous tribe, aroused to fury, facing the camera—a close up of the cruellest face you ever hope to see.

These pictures have been showing for the past three weeks, and are now showing at the Randolph, Chicago's finest and largest picture palace.

CLOTH NOTE MURDER CASE TRUMP CARD

Continued from Page 1

Damaging mass of evidence was collected against the three defendants. John Mazzaro had no sooner taken the stand Saturday than the signs were started.

The right forefinger held vertically over the lips was one first noticed being made by a swarthy Italian. On another question to the right man who occupied a seat to the right in the front row was seen to hold his finger parallel with and across his lips. When another question was shot at the witness by Mr. Sauterhoff, a third Italian coughed and held his right hand, fingers spread, across his chest.

Guard Witnesses
To prevent possible tampering with witnesses it was also ordered that all those for the defense be kept closeted in the court library. Here they are to be held for the remainder of the trial, under heavy guard, denied communication with the defendants or any of their countrymen.

What many believe to be further evidence of Black Hand activities was seen in the sudden determination of the Rev. A. Giuliani, Milwaukee, to resign as interpreter. When the trial was resumed this morning Michael Cozzi, attached to the state's attorney's office in Chicago, was acting as interpreter.

It is also rumored that the state is having difficulty in procuring interpreters, many of the most expert in the country refusing to have anything to do with the case once they learn that it is even remotely connected with the Black Hand.

LABOR READY TO PRESENT THEIR CASE

Continued from page 1

capable of acting in an entirely unbiased capacity as he had been connected with neither the employers nor the shopmen.

Mayor Sayle exp ed that the meeting was called as the outcome of a conference between himself and Governor Philipp. He pointed out that the governor had said that as the case appeared to him, the employers had paid the men their just dues and the present strike was largely a matter of a closed shop. He stated that he did not believe the governor's conception in the case was right and this committee was appointed to try to get an impartial interpretation of the war labor board's award. He said, however, that the committee need not confine themselves to this proposition if they saw fit to go farther.

Plants Still Closed.

Everything was quiet along the picket lines this morning and yesterday. The Gisholt plants are still closed and employees who remained with the firm have been given no other notification than that they will be notified when the plant reopens.

At the Scanlon-Morris company and the Madison Kipp company the workers are being brought in at all times during the night, according to the pickets. Some four car loads are said to have arrived at the Scanlon-Morris company between the hours of 8 last night and 5 o'clock this morning.

The carpenters' strike ended Saturday night when the men voted to accept the proposition of the employers which sets the scale of pay at 67½ cents an hour for outside workmen and 60 cents an hour for shopmen. The semi-monthly pay day will be continued.

OILS AND MOTOR WET WEATHER GROUPS SHOW AFFECTS. CORN DAYS ADVANCES

Independent Strength is Given to Oats; Pork and Lard Soar

(By the Associated Press)

CHICAGO — Wet weather likely to interfere with the crop movement had a bullish effect today on corn. Besides arrivals this morning were much less plentiful than had been looked for. Announcement that six additional vessels had been assigned to the transportation of foodstuffs to Europe from the United States tended also to strengthen the market. Opening prices which ranged from 1½ cent to 1½ cent higher with May 1.59¼¢ and July 1.52¢ were followed by a moderate reaction.

Apprehension that continued rains meant serious delays to seeding gave independent strength to oats. After opening quarter a 3½¢ to 1 cent higher with July 7½¢ to 68¢, the market held firm at near the top of the initial range.

Pork and lard advanced to the highest prices ever known, pork going above \$61 a barrel and lard above \$30 cwt. for May delivery. Urgent export demand together with decreasing supplies of hogs was said to be responsible.

Happenings in the Madison Bowling World Told for the Fans.

To the Secretary of the Madison Bowling Association:
Gentlemen, I have noticed in the columns of The Capital Times some fine letters from a fellow by the name of Bowie. I don't know who he is so I asked the Peace Committee if they could tell me who he was but they said they did not know but they were sure he was not on the Peace League but maybe he was on some bowling league somewhere between Heaven and earth. I told them he wrote from Brest but they said that place was on the map but for how long they did not know.
Now what I want to know is how my team can get in your tournament. If Scoughton and the Pan Dandies can get in on that tournament then I think my team ought to for we have rolled as high as 3129. Will you please send me some blanks some I can give the names of the men on my team and get them in shape for your city tournament. I will let you know more when you write to me and send me those blanks. Tell your man Hoffman that I can play six tunes on the alleys like the sam him.
Most truly yours,
OSCAR TILLY,
Noway.

The Madison Elks' officers' five rolled right into the first line trenches at Oshkosh in the Elks state tournament Saturday. They floored a total of 2,712 pins and it looks like a winner. Joe Starr pulled 200 his second time up. John Pecher captured his crew in great shape, leading off with a 199 score followed by 177 and 184. Harry Busser came up strong in his last game, scoring 194 pins. Ed Babcock pulled 180 at the same time. McCarll went over the top with 235 in his last game. He totaled 614 for his trio of games.

The scores:

Pecher	199	177	184	560
Starr	159	200	158	517
Babcock	165	156	180	501
Busser	184	162	194	520
McCarll	188	193	235	614
Totals	873	888	951	
Grand total				2,712

Elks' Team No. 1, Baskerville, Schaub, Wirka, McCarll and Parkinon bowled a 2,652 total, quite a bit short of the leading Athearn's team likely to get in the money. Team No. 5, O'Brien, Ross, Woldenberg, Meuser, and Loomis rolled 2,408; No. 7, Robert Mitchell, Morgan, Mills, Elver and Joe Mitchell, 2,025; No. 2, Check, Otto, Curtis, Pepper, and J. Wirka, 1,985; No. 6, George Steine, Gilbert, Gallagher, Daumling and Figner, 1,801.

Baseball To Be Turned Upside Down-Johnson Predicts

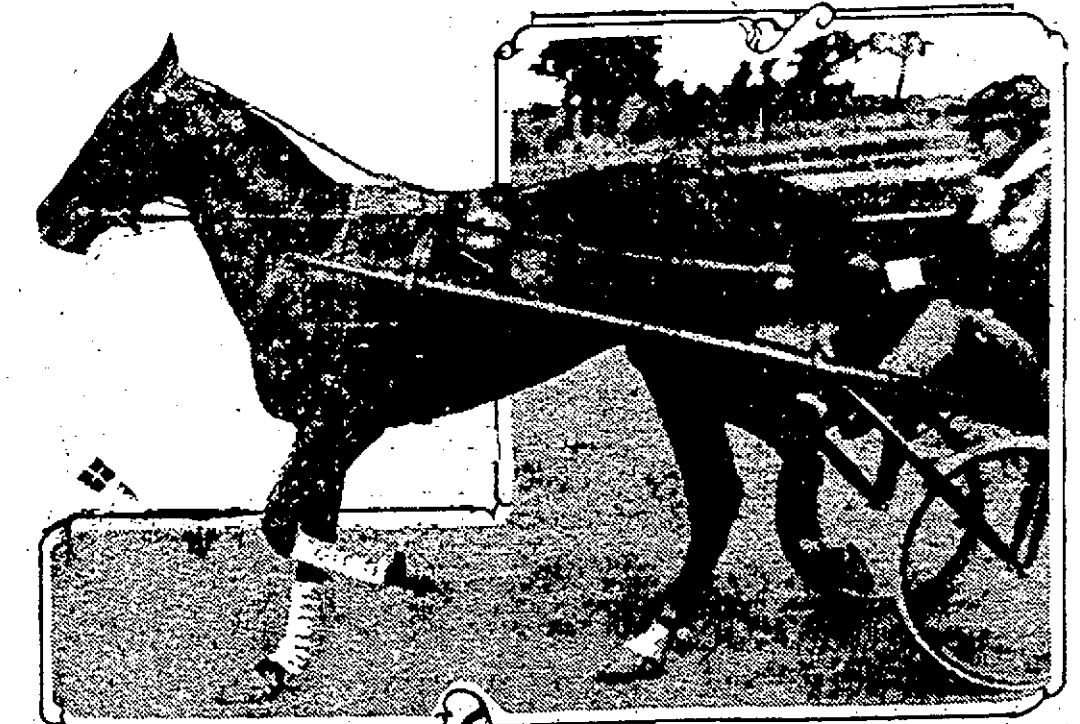

VERDICT OF \$240,000 FOR FEDS IS CAUSE

Dissolution of National Commission, and Contract Changes Forecast

CHICAGO—Dissolution of the national baseball commission, the "supreme court" of organized baseball, absolute severance of relations with the national association of minor leagues and the revision of the players' contracts eliminating the ten days and reserve clauses will be the probable result of the \$240,000 verdict granted the Baltimore club of the Federal league by a jury in the District of Columbia supreme court on Saturday.

These revolutionary measures to safeguard baseball from all future legal attacks were forecast by Ban Johnson, president of the American league, upon his return from Washington Sunday night. The American and National leagues, together with their club owners and officials, and certain officials of the defunct Federal league were defendants in the \$900,000 suit for damages brought under the Sherman-anti-trust law.

Pacer Sold At Auction For \$275 Is Real Star In Light Harness Game

BY N. E. BROWN.
Back in the spring of 1912 a little bay two-year-old was put up at John S. Lackay's sale and brought the measly price of \$275.
Now that horse—it was Single G by name—stands out as one of the greatest pacers in the light harness game.
Before the sale he was owned by partners, I. D. Commons of Center ville, Ind., and W. B. Barefoot of Cambridge City, Ind. Commons' death caused Single G to be put on sale. H. S. Beard bought the colt for \$275 for Barefoot.

Single G's debut was made against the Great William, and the William steed had to wiggle a mile in 2:11 3/4 to cop the money. The next October they got the word again and William went a mile in 2:07 3/4 to win. The Barefoot horse—for Barefoot still owns him—has shown on the Grand Circuit for four seasons.
In 1915 he won purses at Detroit, Hartford, Syracuse, Kalamazoo, Lexington, Columbus and North Randall. His victory at Detroit was in the \$5,000 Chamber of Commerce stake.

Not to Enter Stake Events?
Only three horses beat him that year: It Will Tell, Russel Boy and Earl, Jr.
Single G was the fourth Indiana horse to hang up a two-minute mark. His predecessors were Dan Patch, Prince Albert and William. Single G's first two-minute mark was hung up at Kalamazoo and he defeated Geers' Napoleon Direct in doing it. It must have been heart-breaking to the Indiana nag to lose seven later races with the Geers flier.
It wasn't until that year that Single G finished outside the money. Then twice—both times at Columbus in the fall—he lost out. Miss Harris M won those events.
The latest dope is that the Barefoot horse will not be entered in stake events this year, but will pace exhibition miles at the Grand Circuit and other large meetings.

ON THE RHINE

Gopher Football Team Downs Badgers 26-0—College Yells Amaze the Germans.

(By Mail.)
NEUNEUARR, Germany—In a football contest on German soil March 18 the Minnesota Gopher, represented by the 151st Field Artillery, regimental team, triumphed over the Wisconsin Badger, represented by the 150th Ammunition train team, by a score of 26 to 0. This victory took the Minnesota team into the semi-finals for the championship of the Rainbow division.
Like the Olden Days
Minnesota and Wisconsin soldiers lined the sides of the field and the Wisconsin and Minnesota university yells echoed down the Rhine river valley, while a crowd of gaping Germans wondered which the more unusual, the game of football as played by Americans or the antics and vocal efforts of the backers of the two teams.
Don't let the grass grow under your feet. When a chance to save like Jonas Bros. Sale presents itself improve it.

WORLD RECORD SET BY MAROON

Tom Campbell Runs 600 Yards in 1:13 1-5—Ray Steps Fast 2-Mile

CHICAGO—Tom Campbell, 23, varsity of Chicago freshman, set a new world's indoor record for 600 yards Saturday at the central A. A. U. championship, running the distance in 1:13 1-5. The old mark was 1:13 2-5. Jole Ray, Illinois, set his own time of 9:31 2-5 for 5 miles to 9:16 1-5.
START PIN MEET
MILWAUKEE—When the 10th Harvester teams face the 10th Monday night at 7:30 p. m. at the Olympic alleys, and after President William D. Reed of the Milwaukee Bowling association spreads official thanks deep upon the bowling brows, the greatest city tournament ever held in the state of Wisconsin will be under way, and a steady grind will keep the pins jumping for four full weeks.
